

I would like to ask that the FCC not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Since Indiana's Privacy law was enacted, I receive about 1 "sales" call a month. Before the law, I received 2-3 daily unwanted and unsolicited calls. I have three young children to take care of and this law has greatly improved our quality time at home. Unsolicited calls often interrupted naptime, supper and sometimes occurred after 9:00 at night. Please keep Indiana's Privacy Law intact.

Thank you for your time.

Aubrey and Debra Baird
